

Rubber Dock Bumpers

Eliminate costly and unsightly damage to equipment, vehicles and structures. **WARCO BILTRITE Rubber Dock Bumpers** are appropriate for indoor and outdoor protection and contain the correct amount of resilience to absorb pressure and impact shock. Optimally suited for marinas, loading docks, parking garages, vessel protection and on vehicles, such as tow-trucks, trailers and heavy duty construction equipment.

Rubber Dock Bumpers can be manufactured in weather resistant EPDM or other materials such as SBR, Neoprene, Viton®, Butyl and Natural Rubber in hardness from 40 to 90 Shore A durometer. WARCO BILTRITE Rubber Dock Bumpers can be manufactured in lengths up to 15 feet. Bumpers can be manufactured in most colors and may be formulated to match custom colors for your application. Non-marking bumpers are available. Easy installation and minimal maintenance. As a custom rubber manufacturer, WARCO BILTRITE can provide material and shapes to meet your special requirements and specifications.
