

Fully Customizable Extruded & Spliced Rubber

WARCO is a premier ISO 9001, American, manufacturer of mechanical & industrial rubber, including rubber sheet, molded, & extruded products. Fully vertically integrated with an extensive range of production capabilities, WARCO is the ideal choice for both standard and custom extruded rubber solutions.

Profiles & Dimensions

Whether it's crafting intricate profiles or producing simple cords, our 114+ years of experience in engineering custom extruded rubber products is at your disposal.

Thousands of Custom Profiles Including Sizes of 1/16" to 12"

Endless Lengths

Long or Short

Specifications

Our onsite laboratory & library of 6,000+ formulations allows us to design material to meet virtually any requirement.

ASTM

MILITARY

AASHTO

FDA

CALTRANS

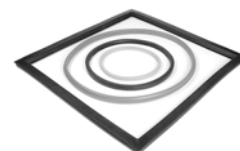

AMS

SAE

& More

Splicing Specialists

Our compounds can be engineered for hot vulcanization splicing, a stronger bond than standard adhesives, ensuring a long-lasting, reliable seals & gaskets.

Polymers

We offer an extensive range of polymers including speciality materials like Viton™ & Silicone. Learn more at warco.com/polymers.

Neoprene

Nitrile

EPDM

FKM
/ Viton™

Silicone

SBR

Natural
Rubber

CSM

Butyl

& More

Colors & Marking

Our color matching and marking capabilities offer unparalleled customization options.

Full Vertical Integration

From formulation to your finished part, WARCO maintains tight control at each step.
