

WARCO®

Fully Customizable Sheet Rubber

WARCO is a premier ISO 9001, American, manufacturer of mechanical & industrial rubber, including **rubber sheet, molded, & extruded products**. Fully vertically integrated with an extensive range of production capabilities, WARCO is the **ideal choice** for both standard and custom sheet rubber solutions.

Specifications

Our onsite laboratory & library of 6,000+ formulations allows us to design material to meet virtually any requirement or compliance.

ASTM	MILITARY	AASHTO	FDA
CALTRANS	AMS	SAE	& More

Polymers

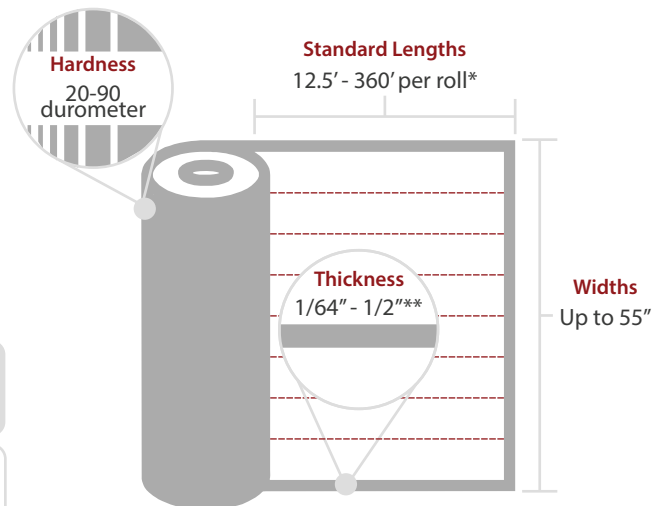

We offer a wide range of polymers including speciality materials like Viton™ & Silicone. Learn more at warco.com/polymers.

Neoprene	Nitrile	EPDM	FKM / Viton™	Silicone
SBR	Natural Rubber	CSM	Butyl	& More

Dimensions

Long or short, thick or thin, our calendering operation produces an extensive range of material suited for your needs.

Additionally, we can provide jumbo rolls and can slit to 4" wide coils.

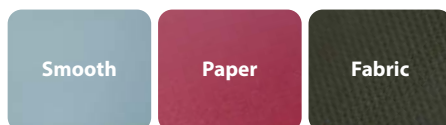

*Roll length dependent upon thickness

**Molded Slabs up to 4" thick available per request

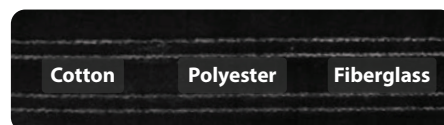

Surface Finishes

For grip or slickness, we offer 3 finishes well-suited for your specific application.

Cloth Inserts

With up to 4 plys of inserts, our material creates an unparalleled level of dimensional stability.

Colors & Marking

Our color matching and marking capabilities offer unparalleled customization options.

Full Vertical Integration

From formulation to your finished part, WARCO maintains tight control at each step.
