

Rubber Thresholds

Made to order

As a custom rubber manufacturer, WARCO is equipped to provide material and shapes to meet your requirements and specifications.

WARCO Rubber Thresholds are manufactured from a tough, durable compound designed to provide long wear in high foot traffic areas. Rubber Thresholds serve many purposes in construction by creating a seal between flooring and a doors. Ideal for use in homes and garages to prevent external forces from entering or hotel rooms to inhibit fire propagation.

+ MANUFACTURING CAPABILITY
